

## **Punching Machine**

### **PIVATIC PCC80 TTi + HT**

Machine weight incl. work piece app. 23 to. Dynamic force vertical 60 KN horizontal 30 KN. Foundation block 5,1 x 3,5 x 1,0 m; Weight app: 40 to.

#### **Solution:**

8 x BILZ® - FAEBI® 580 HD with mechanical control system LCV  
Incl. followings engineering service:  
- design of the foundation block  
- static calculations  
- formwork and reinforcement plans

#### **Special Applications:**

Target: max 3 ½ weeks loss of production; Special pentagon shape. Very low horizontal movement of the machine was required. High vibration efficiency was required because of neighbourhood problems.
